

## DATASHEET BO-AF-150-UK

### Overview

The Black Orchid Axial-flo™ fan is perfect for mounting in tent ventilation holes or for fresh air input into grow rooms. It has the highest performance in its class, while still maintaining low noise levels. It's small, versatile and very adaptable.

- Can be mounted directly on to a carbon filter.
- Ideal for mounting in to tent pockets for air input.
- Use with a carbon filter to 'scrub' recirculate air in your grow room.
- Axial-flo™ technology.
- Plug-and-play, no wiring necessary.
- Slim profile.
- 2 year warranty.
- RoHs compliant & CE marked.
