

Q300

At the top of
the food chain!

It's our biggest HOMEbox® ever! Dedicated to meeting the demands of the most industrious, professional growers, this gargantuan indoor garden will deliver copious amounts of your favourite crops. Ideally lit by nine 600-watt HID grow lights, the HOMEbox® Ambient Q300 provides a staggering nine square meters of growing space!

Every detail on this colossal grow tent has been honed to perfection. Twin side access affords growers the opportunity to check on different areas of their crop quickly and easily. The six OmniFlow directable air vents provide fine-tuned control over air movement within the growing space.

Assembled size: 300 x 300 x 200 cm

Grow space: 9 m²

- High-tech German design and engineering
- Rugged, plant-safe materials ensures long working life
